## Accessing Google Drive for Students

Students have access to Google Drive at home and when at school. Google Drive can be accessed via the Student Portal

<http://student.det.nsw.edu.au/>

When the link is clicked, you will be presented with the following page

The screenshot shows the 'Portal Login Page' for the NSW Department of Education & Communities. The page has a green header with the department's name. Below the header, there is a dark blue bar with the text 'Portal Login Page'. The main content area is white and contains the following text: 'The NSW Department of Education and Communities portal', 'For school students, TAFE students and all staff.', and 'Allows you to access the internet, intranets, email and DEC applications and services from anywhere.' On the right side, there is a 'Log In' section with a 'Username' field, a 'Password' field, and a 'Log In' button. Below the button, there is a link for 'I've forgotten my password' and a note: 'Use your secret questions and answers to reset your password here.'

Enter your student credentials. Once logged into the student portal, on the left hand side towards the bottom of the page you will see a Learning box, inside it there will be a Google Apps link, click on it.

The screenshot shows three sections of the Student Portal: 'Learning', 'Other sites', and 'Games'. Each section has a blue header with a question mark and a minus sign icon. The 'Learning' section lists 'ABC Learn Online', 'Adobe DEC software download', 'Google Apps' (highlighted with a red box), and 'More...'. The 'Other sites' section lists 'Alcohol - My Reality', 'Bridgit', 'Cybersmart Kids Online', and 'More...'. The 'Games' section lists 'ABC's GameOn', 'Mystery Matters', and 'Puzzlemaker'.

When the link is clicked you will be presented with a list of Google Apps, including Google Drive.
